Arhitektica Nina Štajner je studirala na Fakultetu za arhitekturu Sveučilišta u Ljubljani i na Tehničkom sveučilištu u Pragu. Dobitnica je nagrade za perspektivni interijer godine 2012. u okviru Mjeseca Oblikovanja. Zadnje godine se posvetila prije svega radu na području renovacije nekretnina i unutarnje opreme, istovremeno uređuje također i life style blog KitchyWorld. Njezini projekti su bili objavljeni u brojnim domaćim i stranim medijima.

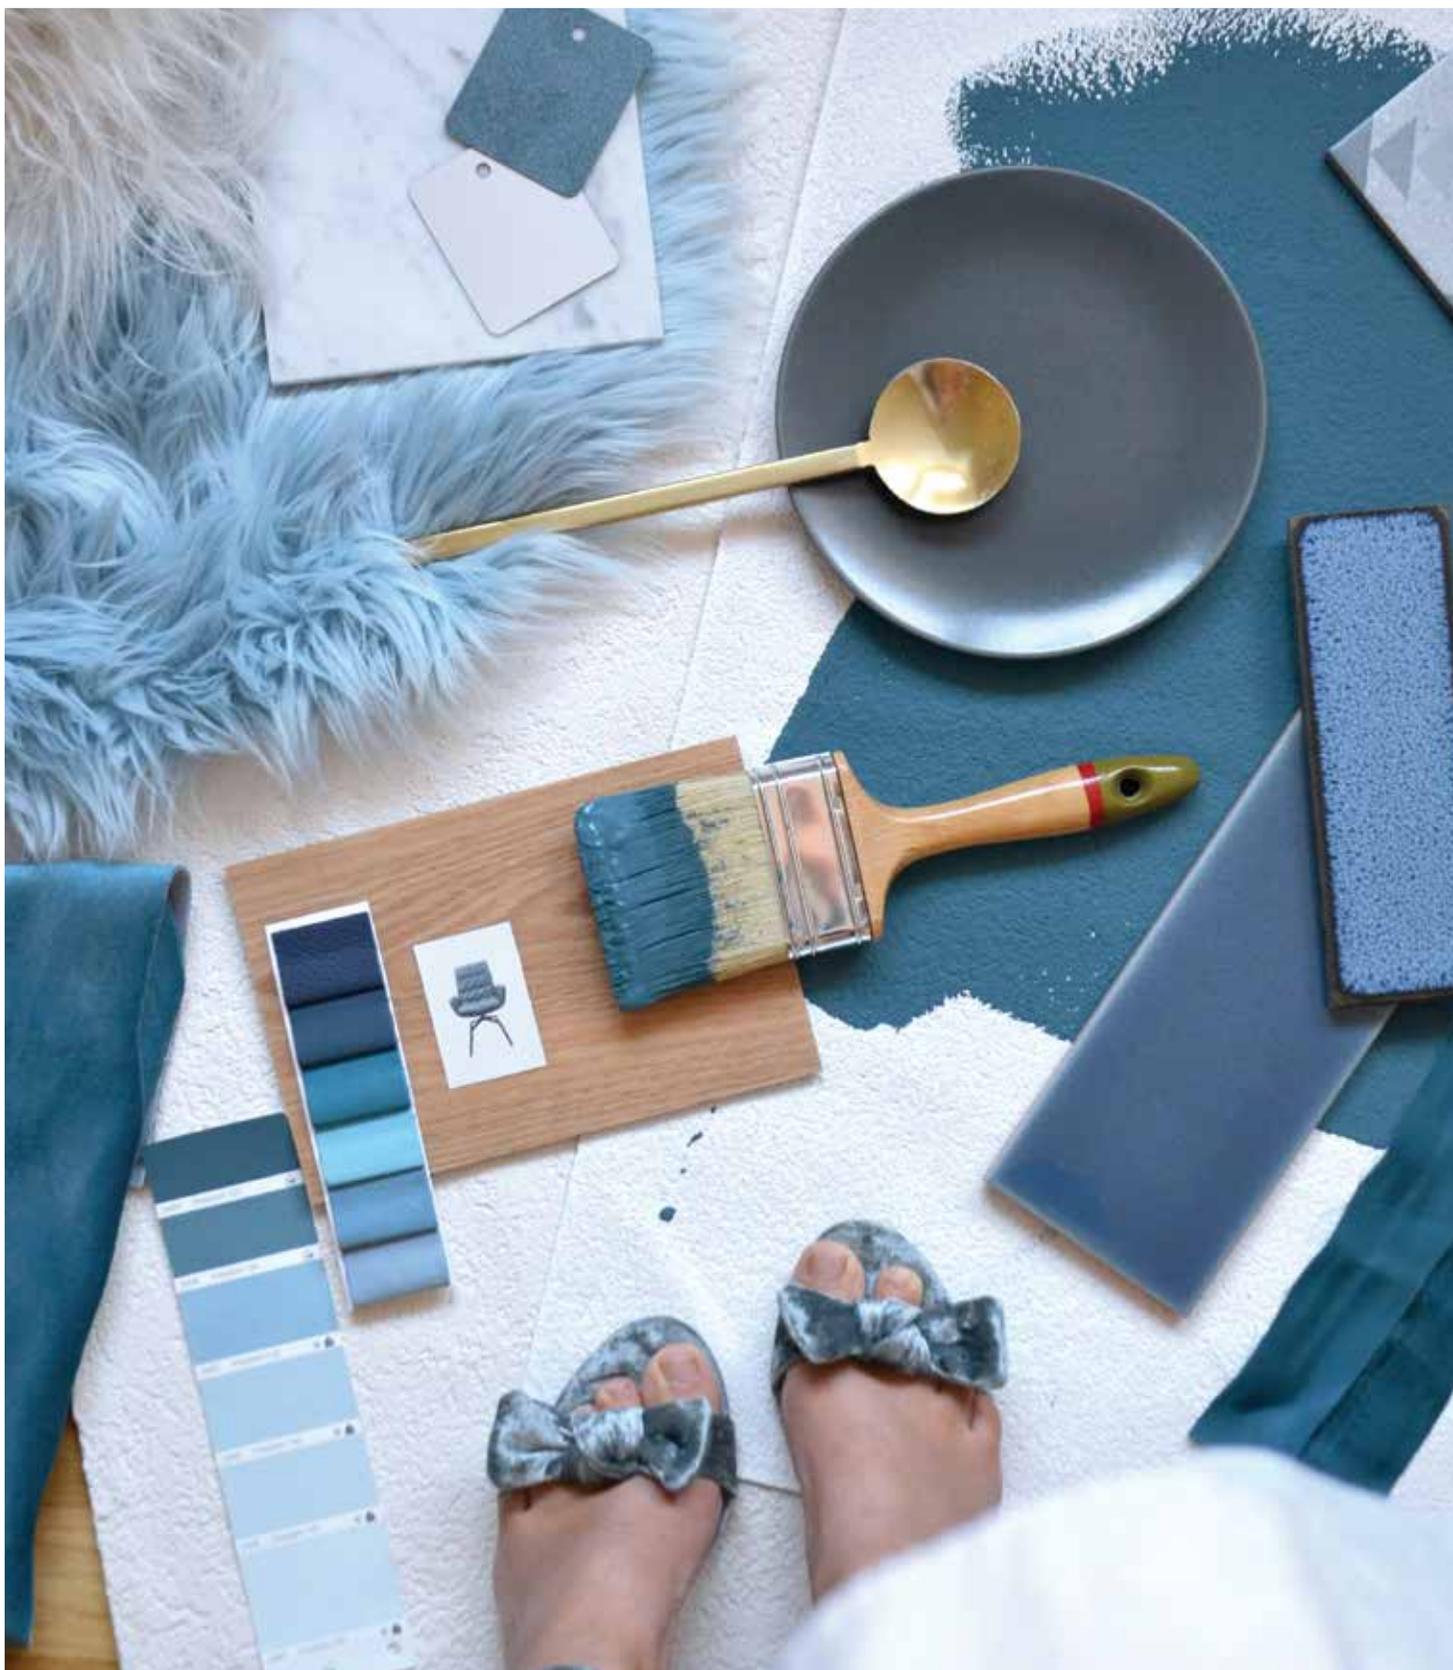

„Počašćena sam da je čast izbora boje godine ovaj put pripala meni, u procesu izbora su se prilikom listanja karte sa bojama, moje oko i srce zaustavljali kod boje Freedom 125. Oduševila me je sa dubinom svoje note i neočekivanim sivkastim pod tonom koji naglašava melankoličnu dramatičnost nijanse. Podsjeća me na plavetnilo razburkanog oceana, olujno nebo ili košaru svježih borovnica.

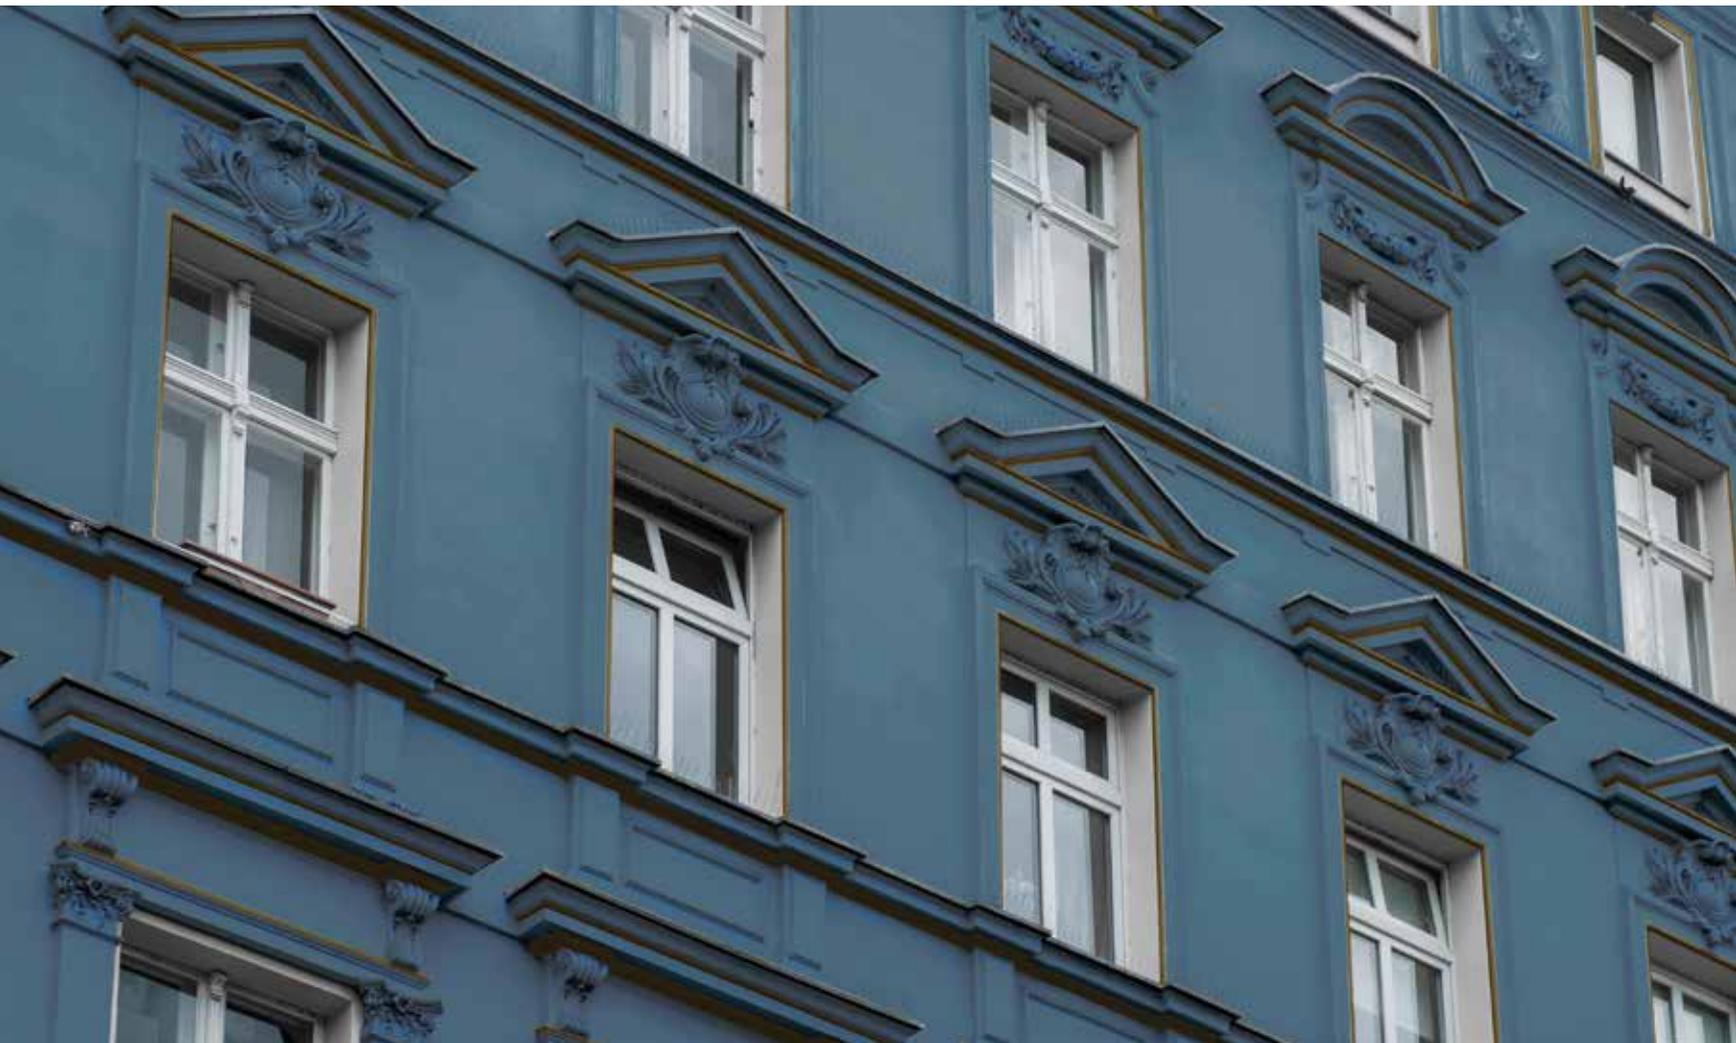

Bogat sivkasto modri ton prikazuje slobodu, beskonačnost i svježinu! Poziva me na razmišljanje o trajnom stilu života i budućnosti našeg planeta. Modrina na mene djeluje opuštajuće i služi kao beskonačan izvor inspiracije za stvaranje ambijenata.

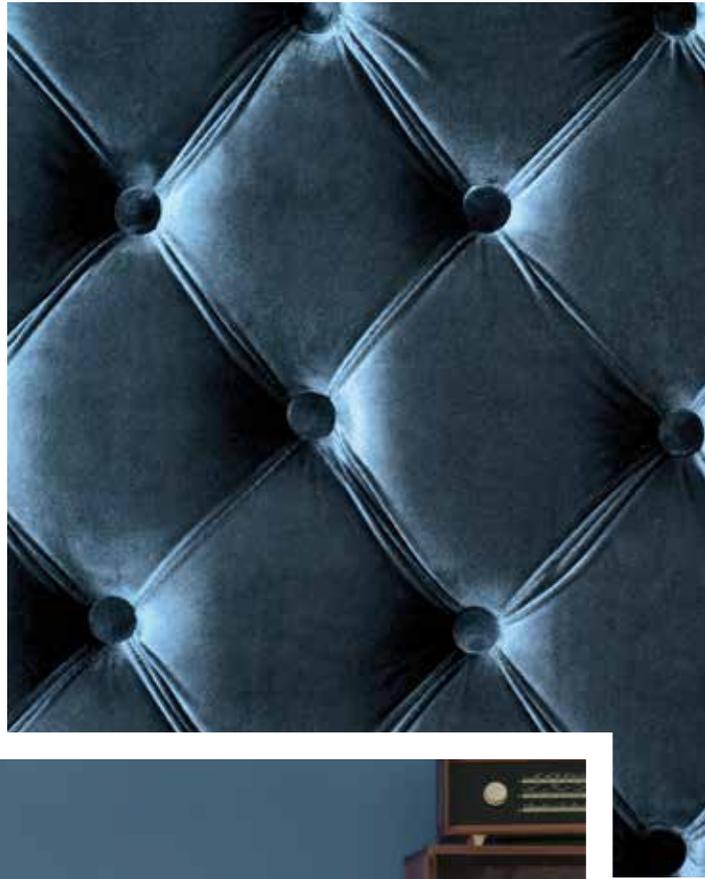

Prirodna, smirujuća modra nijansa je na području oblikovanja prostora uvijek aktualna i praktično je nemoguće da nam dosadi. Iz mojih iskustava, odlično služi kako u ulozi osnovne podloge tako i kao dramatični naglasak. Lijepo pristaje i kod nježnih bež i smeđih tonova, unosi i šarolikost kod crno bijele sheme boja. Za svoje trenutne projekte usudim ju se kombinirati sa komplementarnim tonovima kao što su na primjer smeđe narančasta i senf žuta. Hladan pod ton modrine volim uravnotežiti sa toplim drvenim ili pletenim teksturama, posebno lijepo oživi uz bijeli mramor i sjaj mjedi ili bakra. Pozivam Vas da se zajedno prepustimo modrini i kreativnoj slobodi!“

*“I am honoured that the honour of choosing the colour of the year this time belonged to me, and during the selection process, my eye and heart stopped at the colour of Freedom 125. It impressed me with a deep colour note and an unexpected greyish undertone that emphasizes the melancholy drama of the shade. It reminds me of the blue of the thunderous ocean, a stormy sky or a basket of fresh blueberries. The rich, greyish-blue tone embodies freedom, infinity and freshness! It invites me to think about a sustainable lifestyle and the future of our planet. The blueness has a relaxing effect on me and serves as an endless source of inspiration for creating ambients.*

*The natural, soothing blue shade is always relevant in the field of interior design and is virtually impossible to get tired of. In my experience, it works perfectly both in the role of a basic colour background and a dramatic emphasis. It fits nicely with gentle beige and brown tones, and can also serve to enrich the black and white colour scheme. For my current projects, I boldly combine it with complementary tones such as, for example, rusty orange and mustard yellow. I like to balance the cool undertone of the blue with warm wooden or knitted textures, and it especially comes beautifully alive with white marble and the shine of brass or copper. I invite you to indulge with me in the blueness and the creative freedom!*
